# PHOENIX ART GALA

MARCH 25, 2021 | ONLINE

**HEALING ARTS PROJECT, INC is a not-for-profit organization.**

HAPI exists to fill a gap in recovery and rehabilitation services in Tennessee by providing free art classes taught by professional artists, art exhibits and publication opportunities, and outreach events that are supported by grants and donations to HAPI. These opportunities help participants express and externalize their personal struggles with behavioral health issues. Many participants find it much easier to express themselves artistically rather than verbally (such as in group discussions). They create art to tell their story, promoting healing in themselves and understanding in the community. Much of the art is very high-quality and has the power to change perceptions in the community.

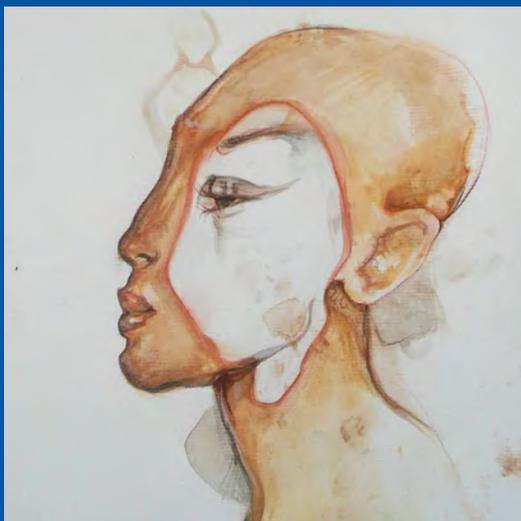

**Phoenix Art Gala gives an opportunity to our artists to display and sell their work. They are all invited to attend the gala free of charge to see their work being displayed, admired, and purchased. When artworks are sold, 60% of the price goes to the artists and 40% goes to HAPI to help with the cost of the event, art classes, and supplies.**

HAPI has served people in mental health and addiction recovery across Middle Tennessee for more than 12 years. This March, we're aiming to raise dollars to continue to provide free art classes, workshops, exhibitions, and art supplies. The Phoenix Art Gala will have a silent auction showcasing the talented work of our members and raising awareness about our services. We think our efforts would go even further with corporate sponsors. In this role, your business would provide financial support and in turn, we would promote your company as one of the event's official sponsors. Alternatively, your team will receive the benefits outlined in our sponsorship details on the next page.
